

From: Raymond Smith, Facilities and Quality Director

Re: California Proposition 65 Compliance

In response to concerns regarding the State of California “Safe Drinking Water and Toxic Enforcement Act of 1986”, commonly referred to as Proposition 65, this memo is to confirm we are in full compliance. We have reviewed the list of chemicals known to the State of California to cause cancer or reproductive toxicity. The products manufactured by United Sugars Corporation do not contain any of the chemicals found on this list.

Please call or write if you have any questions or concerns. United Sugars Corporation is committed to continued service to our valued customers.
