Re: No animal by-products used

In response to concerns regarding the use of animal by-products in processing sugar, this letter is to confirm that no animal by-products are used in the manufacture of sugar from either sugar beets or sugar cane. This statement covers all manufacturing facilities that are members of United Sugars Corporation. As further confirmation of this, all of our facilities are Kosher certified as pareve meaning they are free from any contact with dairy products, animal by-products or other derivatives including bone char.

Please call or write if you have any questions or concerns. United Sugars Corporation is committed to continued service to our valued customers.
