Re: Testing for pesticides in sugar

United Sugars Corporation adheres to the following practice in testing for pesticides:

Pesticides are checked annually. The attributes tested are CHC-OP pesticides. Our sugar is guaranteed to meet the CODEX standards for pesticide residue. The following is a list of the CHC-OP pesticide screen

Alpha HCH	HCB
Aldrin	Heptachloe Epoxide
Beta HCH	Heptachlor
Chlorpyrifos	Lindane
Delta HCH	Malathion
Diazinon	Methoxychlor
Dieldrin	Mirex
Disyston	Methyl Parathion
Endofuran I	4,4-DDD
Endrin	4-4-DDE
Ethyl Parathion	4,4-DDT
Ethon	Ronnell
Trithion	

We moved to this schedule after sufficient historical data indicated that more frequent testing was not required.

Please call or write if you have any questions or concerns. United Sugars Corporation is committed to continued service to our valued customers.
