

Fine/Extra Fine Granulated Sugar

Fine/Extra Fine Granulated Sugar, a food grade product, is made by crystallizing a purified and filtered thick juice syrup removed from sugar beets or sugar cane, which is then dried and screened to produce the most popular sugar grades. It is white in color and has sucrose content of not less than 99.85 percent. This product is either referred to as Fine Granulated Sugar or Extra Fine Granulated Sugar, depending on local market.
